|--|----|
| Foreword | ix |
| 1 Treatment of advanced cancer | 1 |
| Introduction | 1 |
| Curative anticancer treatment | 1 |
| Palliative anticancer treatment | 1 |
| 2 Palliative care in advanced cancer | 5 |
| Introduction | 6 |
| The patient with advanced cancer | 6 |
| Crucial points for palliative care in advanced cancer | 6 |
| What is the best place for palliative care in advanced cancer? | 8 |
| Conclusion | 9 |
| 3 Definition of palliative care | 11 |
| Introduction | 11 |
| Goals of care | 12 |
| Phases of cancer | 13 |
| Supportive, palliative and end-of-life care | 13 |
| Infrastructural needs | 15 |
| 4 How to integrate medical oncology and palliative medicine | 17 |
| 5 Surgery in advanced cancer | 21 |
| Introduction | 21 |
| Patient selection | 21 |
| Indications for surgery | 23 |
| Palliative surgery in specific tumors | 24 |
| Side effects | 28 |
| Conclusion | 28 |

| | | |
|----------|---|-----------|
| 6 | Radiotherapy in advanced cancer | 30 |
| | Introduction | 30 |
| | General principles of palliative radiotherapy | 30 |
| | Bone metastases | 31 |
| | Spinal cord compression | 33 |
| | Brain metastases | 34 |
| | Leptomeningeal carcinomatosis | 36 |
| | Lung cancer | 36 |
| | Superior vena cava syndrome | 37 |
| | Esophageal cancer | 37 |
| | Pelvic masses | 37 |
| 7 | Anticancer drug treatment | 39 |
| | Indications | 39 |
| | Selection of patients for anticancer drug treatment | 39 |
| | Treatment of specific tumor types | 46 |
| | Side effects | 46 |
| | Conclusion | 48 |
| 8 | Gastrointestinal problems | 49 |
| | Introduction | 49 |
| | Xerostomia and stomatitis | 49 |
| | Dysphagia | 50 |
| | Nausea and vomiting | 52 |
| | Diarrhea and pseudodiarrhea | 57 |
| | Constipation | 59 |
| | Acute and subacute malignant bowel obstruction | 63 |
| | Anal tenesmus | 65 |
| | Ascites | 66 |
| | Gastrostoma management | 68 |
| | Conclusion | 68 |
| 9 | Alimentation/hydration | 71 |
| | Anorexia/cachexia syndrome | 71 |
| | Anorexia | 72 |
| | Dehydration | 76 |
| | Modes of alimentation | 78 |
| | Conclusion | 79 |

| | | |
|-----------|--|-----|
| 10 | Metabolic problems | 80 |
| | Hypercalcemia | 80 |
| | Endocrine paraneoplastic syndromes | 82 |
| | Hypocalcemia | 85 |
| 11 | Respiratory problems | 87 |
| | Introduction | 87 |
| | Dyspnea | 87 |
| | Cough | 95 |
| | Acute respiratory failure | 98 |
| | Hemoptysis | 102 |
| | Death rales | 104 |
| 12 | Genitourinary problems in advanced cancer | 105 |
| | Urinary obstruction | 105 |
| | Radiation-induced hemorrhagic cystitis | 108 |
| | Frequency–urgency–urinary incontinence–dysuria | 109 |
| 13 | Neurological problems in advanced cancer | 111 |
| | Introduction | 111 |
| | Raised intracranial pressure | 111 |
| | Seizures | 112 |
| | Brain metastases | 117 |
| | Leptomeningeal carcinomatosis | 119 |
| | Paraneoplastic neurological syndromes | 121 |
| | Paraneoplastic syndromes with muscle rigidity | 126 |
| | Neuromuscular junction disorder | 127 |
| | Cranial neuropathies | 127 |
| | Plexopathy | 129 |
| 14 | Psychiatric problems | 133 |
| | Introduction | 133 |
| | Adjustment disorders | 133 |
| | Anxiety | 137 |
| | Depression | 139 |
| | Fatigue | 142 |
| | Sleep disorders | 143 |
| | Delirium and terminal restlessness | 146 |

| | | |
|-----------|--|-----|
| 15 | Cancer pain | 150 |
| | Prevalence and etiology | 150 |
| | Pain assessment and classification | 150 |
| | Treatment of pain | 152 |
| | Analgesics | 154 |
| | Coanalgesic or adjuvant drugs | 172 |
| | Complicated pain syndromes | 176 |
| | Anesthetic methods for pain control | 176 |
| | Nonpharmacological pain interventions | 178 |
| | Psychological and spiritual interventions | 179 |
| | Conclusion | 179 |
| 16 | Skin problems in advanced cancer | 181 |
| | Introduction | 181 |
| | Pruritus | 181 |
| | Cutaneous tumor involvement | 186 |
| | Lymphedema | 190 |
| | Pressure sores | 190 |
| | Fungating wounds | 194 |
| 17 | Other problems | 196 |
| | Hiccup | 196 |
| | Bleeding | 198 |
| | Sweating | 199 |
| | Prevention and treatment of thromboembolic complications | 200 |
| 18 | Geriatric patients with advanced cancer | 204 |
| | Introduction | 204 |
| | Incidence and mortality | 204 |
| | Evaluation | 205 |
| | Treatment | 206 |
| | Side effects | 210 |
| | Supportive care | 210 |
| | Conclusion | 211 |
| 19 | Care of the imminently dying patient | 213 |
| | Introduction | 213 |
| | Suffering and the terminal phase of the disease | 213 |

| | |
|--|------------|
| Main symptoms of the terminal phase of the disease | 214 |
| Total approach to suffering and quality-of-care assessment | 218 |
| 20 Communication issues in advanced cancer care | 219 |
| General issues in communication | 219 |
| Communication issues when stopping chemotherapy | 222 |
| Communication in palliative care | 224 |
| Communication in the hospice | 227 |
| Communication issues in the patients' families | 230 |
| Conclusion | 232 |
| 21 Self-care | 234 |
| Introduction | 234 |
| Burnout | 234 |
| A model of self-care | 235 |
| Detection | 235 |
| Taking care | 236 |
| 22 Psycho-oncology in palliative care | 238 |
| Introduction | 238 |
| Development of psycho-oncology | 238 |
| Psycho-oncology and palliative care | 239 |
| Conclusion | 241 |
| 23 Bereavement | 243 |
| Introduction | 243 |
| Etiology | 243 |
| Assessment | 244 |
| Complicated or pathological grief | 244 |
| Treatment | 244 |
| Precautions | 246 |
| 24 Existential and spiritual issues | 247 |
| Prevalence and definitions | 247 |
| Etiology | 248 |
| Assessment | 250 |
| General intervention options | 251 |
| Religious intervention options | 252 |

| | |
