Preface	xxx
1 Adolescents and Young Adults with Cancer: The Pathway of Care	1
Overview	1
Definitions	2
Particular Aspects of Cancer in AYAs	3
The Pathway of Care for AYAs with Cancer	4
Further Reading	9
2 The Unique Epidemiology of Cancer in Adolescents and Young Adults	12
Overview	12
Cancer Incidence and Main Cancer Types	13
AYA Cancer Survival	18
Cancer Mortality	23
Aetiological Factors	24
Conclusions	26
Further Reading	27

3	Psychosocial Screening and Assessment in Adolescents and Young Adults with Cancer: Process and Engagement Considerations	30
	Overview	30
	Working with Young People – Some Essentials	32
	Building Rapport	32
	Who is in Control?	33
	Sharing and Explaining Health Information	35
	Working with AYAs’ Wider Circles of Support	35
	Psychosocial Assessment and Care of AYA Patients	36
	Screening	38
	Planning Care	38
	Assessment	40
	Benefits of Systematic Psychosocial Screening, Assessment and Care Planning	40
	Further Reading	41
4	The Unique Molecular Biology and Cancer Genetics in Adolescents and Young Adults	45
	Overview	45
	AYA Cancer: A Unique Composition of Diseases	45
	Hereditary Syndromes and Genetic Risk	46
	Genetic Counselling: What to Include	47
	Genetic Counselling: Communication Skills	48
	AYA Cancers Require Specific Genetic Tests	50
	Molecular Testing is Necessary to Enable AYAs to Explore More Treatment Options	50
	Further Reading	51
5	Leukaemias in Adolescents and Young Adults	53
	Overview	53
	Acute Lymphoblastic Leukaemia	54
	Acute Myeloid Leukaemia	58
	Chronic Myeloid Leukaemia	61
	Late Effects	62
	Conclusions	62
	Further Reading	63

6	Lymphomas in Adolescents and Young Adults	65
	Overview	65
	Epidemiology	66
	Hodgkin Lymphoma	66
	Non-Hodgkin Lymphoma	70
	Mature B-Cell Lymphomas	71
	Lymphoblastic Lymphoma	74
	Anaplastic Large-cell Lymphoma	75
	Conclusion	76
	Further Reading	76
7	Neuro-oncology in Adolescents and Young Adults: A Plea for Cooperation Between Paediatricians and Adult Clinicians	79
	Overview	79
	Epidemiology	80
	Clinical Features and Reasons for Delayed Diagnosis	82
	Biological Features and Genetic Abnormalities of AYA Brain Tumours	82
	Diagnostic Review and Treatment: A Multidisciplinary Approach	84
	Follow-up for Recurrence and Late Effects	85
	Conclusion	87
	Further Reading	88
8	Soft Tissue Sarcomas in Adolescents and Young Adults	90
	Overview	90
	Soft Tissue Sarcomas: A Challenging Epidemiology	91
	Possible Reasons for the Different Outcome According to Age	92
	Centralisation of Diagnosis and Treatment	93
	Delay in Diagnosis	94
	Need for Multi-professional Interdisciplinary Approach	95
	Current Treatment	95
	New Targeted Therapies	98
	After the End of the Therapies	98
	Conclusion	99
	Further Reading	100

9	Bone Sarcomas in Adolescents and Young Adults	103
	Overview	103
	Epidemiology of Bone Sarcoma in Adolescents and Young Adults	103
	Clinical Features and Reasons for Delayed Diagnosis	104
	Biological Features and Genetic Characteristics	104
	Importance of Centralised Diagnostic Review and Treatment	
	Within Multi-Institutional Group Infrastructures	105
	Multi-professional, Interdisciplinary Approach to AYAs	
	with Bone Sarcoma	106
	Principles of Local Therapy	107
	Principles of Systemic Treatment	108
	Treatment of Recurrent Disease	110
	Follow-up for Recurrence and Late Effects	110
	Further Reading	111
10	Germ Cell Tumours in Adolescents and Young Adults	113
	Overview	113
	Epidemiology of GCTs	116
	GCTs and Genetic Predisposition	116
	Diagnosis of GCTs	118
	Treatment of GCTs	119
	Multi-professional and Interdisciplinary Approach	
	to AYAs with GCTs	121
	Further Reading	122
11	Breast Cancer in Girls and Young Women	124
	Overview	124
	Characteristics of Breast Cancer in Young Women	125
	Is Young Age a Negative Prognostic Factor?	126
	Familial Breast Cancer	126
	Should Treatment for Young Women Be More Aggressive?	127
	Special Considerations	129
	Conclusions	131
	Further Reading	131

12 Colorectal Cancer in Adolescents and Young Adults:	
Focus on Hereditary Syndromes	134
Overview	134
Genetic Predisposition for CRC	135
Hereditary CRC Syndromes	137
Non-cancerous Features Leading to the Genetic Diagnosis	139
Diagnostic Testing of Hereditary CRC	139
Conclusions	140
Further Reading	140
13 Juvenile Melanoma	142
Overview	142
Subtypes of Juvenile Melanoma	143
Predisposing Conditions	147
Clinical Features	148
Management of Juvenile Melanoma	148
Summary	153
Further Reading	153
14 Rare Tumours	156
Overview	156
Salivary Gland Carcinomas	159
Rare Gonadal Tumours	160
Liver Tumours	162
Pancreatic Tumours	164
Further Reading	166
15 Usual Medical Emergencies in Adolescents	
and Young Adults with Cancer	168
Overview	168
Febrile Neutropenia	169
Tumour Lysis Syndrome	170
Other Metabolic Disturbances	171
Intracranial Hypertension	172
Spinal Cord Compression	173
Superior Mediastinal Syndrome	174

Compartment Syndrome	174
Bleeding Disorders	175
Psychiatric Disturbances	176
Further Reading	176
16 Short- and Long-term Toxicities of Treatment in Survivors of Adolescent and Young Adult Cancer	178
Overview	178
Toxicities of Cancer Treatments	179
Toxicities in Survivors of Common AYA Cancers	182
Selected Late Effects Among AYA Cancer Survivors	184
Surveillance for Late Effects	187
Screening Recommendations for Common Late Effects	188
Concluding Remarks	192
Further Reading	192
17 Fertility and Fertility Preservation	195
Overview	195
Risk Factors	196
Assessment Tests	198
Fertility Preservation	198
Communication	199
The Emotional Impact of Infertility	200
Follow-up	201
Further Reading	202
18 Cancer and Pregnancy	204
Overview	204
Diagnosis and Staging	205
Local Treatment	206
Systemic Treatment	207
Obstetric Care and Long-term Outcomes of Children Exposed to Anticancer Therapies <i>in Utero</i>	211
Conclusions and Future Perspectives	212
Further Reading	213

19	Cancer Survivorship Issues and Lifestyle Interventions: Lessons Learnt from Long-term Childhood Cancer Survivors	215
	Overview	215
	Epidemiology of Childhood Cancer Survivorship	216
	Follow-up Care of Survivors	217
	Transition of Care from Child- to Adult-orientated Services	220
	Psychological Issues in AYA-aged Survivors	222
	Lifestyle Issues and Interventions in AYA-aged Survivors	223
	Further Reading	224
20	Psychosocial Support of Adolescents and Young Adults with Cancer: Focus on Professional and Social Reintegration	227
	Overview	227
	Problems and Challenges of AYA Survivors	228
	Psychosocial Needs of AYA Survivors	231
	Psychosocial Interventions	234
	Follow-up for AYA Survivors	235
	Further Reading	236
21	Increasing Access to Clinical Trials and Innovative Therapy for Adolescents and Young Adults with Cancer: The Importance of International Collaborative Networks	238
	Overview	238
	Towards a Safe Abolition of the 18 Years Dogma from Early Phase Drug Development	240
	Towards an Increased Biological Knowledge for More Molecular- driven Clinical Trials in the Era of Personalised Medicine	242
	Essential Multidisciplinary Centralised AYA-specialised Infrastructure to Facilitate Early Access to Clinical Trials	245
	Conclusion	246
	Further Reading	246
	Index	250

Does this Table of Contents interest you? Would you like to read more?

If you are an ESMO Member, simply log in to your account to download the complete book along with over 20 other titles on a broad range of topics - all of them written to assist you in your daily practice.

If not an ESMO Member, then consider joining!

ESMO Members belong to a global community of over 25,000 oncology professionals. Membership provides you many other benefits, including:

- **Full access to ESMO educational and scientific resources**, all centralised on our portal OncologyPRO
- An **online subscription to Annals of Oncology**
- A wide range of **exclusive courses and learning opportunities** for every stage of your career
- **Reduced registration fees** for ESMO meetings
